The Pebbles Project

Submitted by Ruth Dessington

We're a non-profit organisation passionate about supporting children and their families in farming communities in South Africa.

The main emphasis of the Pebbles Project is education. We work with children and families in the Winelands farming communities in the Western Cape. We focus on the entire life of the child and the challenging circumstances in which they live in order to make a significant and lasting difference. Since our inception in 2004, we have impacted the lives of children and their families in areas of education as well as nutrition, health, community and protection.

Our 5 main focus areas are Education, Health, Nutrition, Community and Protection.

We currently have 1 195 children, 99 teachers and 30 facilities. All of this would not be possible without our various donors and volunteers.

Guest Speaker	Lorenzo Davids (CEO of Community Chest) spoke to us about the fate of the Carnival, which needs a 5 million rand sponsor in order to run. As the Carnival is only about 8% of their annual income it is not entirely feasible for them to continue to host it without a sponsor. Community chest sponsors about 400 NGOs in the Western and Eastern Cape. They are now focusing more on the geographical impact of an NGO rather than just a project report before sponsoring a specific NGO.
