Each year, Rotary funds some of the world's most dedicated and brightest leaders to study at Rotary Peace Centres. Through training, study, and practice, Rotary Peace Fellows become catalysts for peace and development. Many go on to careers with governments, NGOs, the military, law enforcement, and international organizations like the United Nations and the World Bank.

Applications for the 2020-21 Rotary Peace Fellowship program are now being accepted. The due date for candidates to submit applications to their district is 31 May. Districts must submit endorsed applications to The Rotary Foundation by 1 July.

Clubs and prospective applicants are urged to find full details of the programme at <https://my.rotary.org/en/peace-fellowship-application>. Applicants are welcome to contact me at michaelw@telkomsa.net, or as shown below.

Tailpiece

Scientists (of which I was proud to be at one stage) research the weirdest items. One which I loved recently was reported in 'The Smithsonian' on 18th March 2019 :

Scientists Played Music to Cheese as It Aged. Hip-Hop Produced the Funkiest Flavour

Researchers played nonstop loops of Led Zeppelin, A Tribe Called Quest and Mozart to cheese wheels to find out how soundwaves impacted flavor
